DETAILED ACTION

1. This Office Action is a response to communications dated 01/24/05. Claims 1-61 are pending in the application.

Information Disclosure Statement

2. The information disclosure statement filed 01/24/05 complies with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609. It has been considered and placed in the application file.

Allowable Subject Matter

3. Claims 1-61 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed invention of base claims 1 and 55, comprising, among other limitations, novel and unobvious limitations of control means for/step of "dynamically switching among selected ones of said transceiver stations to provide said particular dedicated channels for said particular mobile station, said switching causing ones of said component segments of said split segments to be unavailable for processing at a common location" and "controlling said component segments to enable the processing of said split segments", structurally and functionally interconnected with other limitations in a manner as recited in base claims 1 and 55. Dependent claims 2-54 and 56-60 further limit base claims 1 and 55, respectively.

The prior art of record also fails to fairly show or teach the claimed invention of base claim 61 in a manner as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
